

3rd Graders DAY

Barbour County **3rd graders** will again be attending the Annual
2018 Barbour County Fair to find it "Jammed Packed with Family
Fun"

For many year's the Fair has set a day aside to give the 3rd grade student's in Barbour County an opportunity to visit, learn, and enjoy all the events offered on their special day. First they will be guided through several learning adventures of the days past, such as Mouse Run School House. Be all a buzz with Bee Keepers in action while experiencing the making of honey. Witness the intricate mechanic's of the Grist Mill grinding out delicious, goodness known as corn meal. Students will see, smell and maybe even get a lil taste of homemade apple butter made over an open fire. They will have the chance to walk through all the barns, and all the exhibits while learning about livestock and agriculture. They can take a few minutes to rest as they ride on the horse-drawn wagons around the fair grounds. This year they will be able to see a functional model train roll through a mountain side. Eat, play, learn, and exercise all the while just being a kid. The students will be able to enjoy carnival rides, towards the end of their visit. Then away they will go on the buses home with goodie bags in hand. All in hopes that they will truly learn to enjoy all the "Jammed Packed Family Fun" the Barbour County Fair has to offer.
